Course Description:

Class Description:

2-Day pistol class with day 1 dedicated to Mastering the 3 pillars of shooting (Grip/Sights/Trigger) and primarily focusing on Execution methodology. Day 2 is geared towards the true understanding of Exploration and finding "that pace" while pushing speed and threshold of breaking barriers. Identifying weaknesses and understanding how to make them your strengths will be spotlighted. Attack vs. control targets will be discussed, levels of confirmation, shot calling, and adopting the 90-10% rule. Many plateaus will be shattered during this day and is about breaking through your current shooting barriers. Best of both worlds in this class with many rounds put down range on the second day. Each day students will have an opportunity to shoot the "Point 1 Tactics Elite Pistol Performance Standards".

Bio:

As a Navy Master Explosive Ordnance Disposal Technician I've had the privilege of spending a decade in the military embedded in many different specialized units. I realized early on that to integrate seamlessly I needed to become highly proficient in many areas. Shooting was one such skill that became something more to me than just an occupational necessity. I've been very fortunate to have had the ability to expand my personal experience by having access to the most elite shooting schools/instructors. Always a student of my craft, I continue the practice of seeking out training with the best to this day.

Donovan Moore of Point 1 Tactics has earned the title of Grand Master in USPSA. Currently the first and only one ever to achieve that milestone shooting the discipline from concealment. P1T's credo will make you a more skilled and efficient shooter. The primary focus always being: Achieving a masterful level of the 3 Pillars; Grip/Sights/Trigger. As a responsible and capable firearm owner, you must understand the rationale behind Exploration / Execution. When training with P1T you will be challenged, pushed beyond your comfort level, and expected to engage in effective communication. It is my goal to educate, identify a weakness, then give you homework to make that weakness a strength. I take great pride in the effective teaching of all students regardless of their previous experience level.
